

# PEO Ottawa Chapter Welcomes You !

## PEO Ottawa Chapter Committees / Sub-Committees / Programs:

- ◆ Education Outreach Committee
  - ◆ EIR Sub-Committee
- ◆ Event Committee
  - ◆ Sustainability Sub-Committee
- ◆ Communication Committee
- ◆ Engagement Committee
- ◆ Licensure Assistance Program (LAP)
- ◆ Innovation/Entrepreneurship Program
- ◆ Government Liaison Program (GLP)

## Education Outreach Committee

We organize educational and engaging activities in the community to inspire youth, students, professionals and the public to explore engineering as a career.

## Volunteer Opportunities:

- ◆ Conduct engineering activities.
- ◆ Attend educational community events.
- ◆ Judge engineering competitions.
- ◆ Mentor elementary students for engineering competitions.
- ◆ Networking/career events at universities.
- ◆ Share engineering experience with graduating high school students.

Contact email: [opeo.edu@gmail.com](mailto:opeo.edu@gmail.com)

## Engineer In Residence (EIR) Sub-Committee

We match volunteer engineers (EIRs) with schools, ranging from Kindergarten to Grade 12, to help teachers with Science and Engineering and excite young minds with Science, Technology, Engineering and Math (STEM).

## Volunteer Opportunities:

- ◆ Become a volunteer EIR.
- ◆ Shadow other EIR in a classroom.
- ◆ Recruit new schools and engineers.

## Volunteer Testimonials

Encouraging next generations to see engineering fields as a potential future profession path was the main reason I volunteer for PEO events I see that the PEO activities are using simple ways to show the importance of the engineering teamwork and emphasize its significant role in the daily life.

**-Zaed Sahem**

The Funfest was my first time volunteering with PEO and the reason I did it was I wanted to get more involved in this field and gain some experiences as an engineering student. I liked working with the kids at the festival and gave them tips and feedback at times. The atmosphere was great and everyone there showed a good team spirit. The kids had fun at our booth and it was a good event!

### Event Committee

We deliver a diversified portfolio of events as outreach to our members and general public. Our events include picnics, networking, technical tours and seminars, sporting activities and more.

Volunteer Opportunities:

- ◆ Generate new event ideas.
- ◆ Plan and deliver events.

Contact email: [opeo.event@gmail.com](mailto:opeo.event@gmail.com)

### Sustainability Sub-Committee

We organizes sustainability symposiums contributing to “Cultural Shift to Sustainability”.

Volunteer Opportunities:

- ◆ Present on Sustainable Technologies, and IDEAS to inspire us all.
- ◆ Plan and organize sustainability symposiums.

Contact email:  
[Sucha@BangaGroup.com](mailto:Sucha@BangaGroup.com)

### Communication Committee

We inform the general membership of events, opportunities and news.

Volunteer Opportunities:

- ◆ Maintain and update chapter website and social media.
- ◆ Create annual news letter.
- ◆ Plan and execute other communication activities.

Contact email: [opeo.comm@gmail.com](mailto:opeo.comm@gmail.com)

### Engagement Committee

We engage the engineering community to increase cooperation between engineering organizations and volunteers with the chapter.

Volunteer Opportunities:

- ◆ Develop outreach strategies.
- ◆ Generate new event ideas.
- ◆ Plan and deliver events.

Contact email:  
[opeo.engage@gmail.com](mailto:opeo.engage@gmail.com)

### Licensure Assistance Program (LAP)

We provide a one-on-one opportunity for EITs to gain valuable knowledge and experience from P.Eng. mentors.

Volunteer Opportunities:

- ◆ LAP mentors to guide EITs with their licensing process.
- ◆ Casual mentors guiding students, EITs and early stage engineers for professional development through events (e.g. networking event).
- ◆ Presenters for EIT events.

Contact email: [opeo.lap@gmail.com](mailto:opeo.lap@gmail.com)

### Innovation / Entrepreneurship Program

We organize events to promote innovation and entrepreneurship among the community of engineers and engineering students, for the economic and employment benefit of Ottawa, Ontario and Canada.

Volunteer Opportunities:

- ◆ Recruit students and engineers for innovation and entrepreneurship.
- ◆ Organize meetings and engineering challenges.
- ◆ Generate new ideas for events.

Contact email: [tkdas@rogers.com](mailto:tkdas@rogers.com)

### Government Liaison Program (GLP)

We support political decision makers in the field of engineering. This is achieved by planned interaction with Members of Provincial Parliament (MPPs), attending their activities and inviting them to Take Your MPP for a Work Day events.

Volunteer opportunities:

- ◆ Training on Government/PEO relations in the form of PEO Eastern Region academies.
- ◆ Meet directly with MPPs and to attend MPP events.
- ◆ Opportunity to attend Queens Park Day in Toronto.
